- Frontend Web Development
- Graphics Designing
- Microsoft Office
- Basic AI Automation

OBJECTIVE

To be part of a progressive organization that values dedication, professionalism, and continuous learning. I seek to utilize my knowledge and skills to contribute meaningfully while gaining valuable experience. Focused on delivering consistent results and building a strong foundation for long-term career growth.

Education

Graduated Bachelor of Science in Information Technology (Undergraduate)

2025 - Expected 2028/2029

STI COLLEGE - Lucena

Work Experience

Freelancing

2022 - 2025

Graphic Designing / Video Editing

- Delivered creative design and video editing services for various clients, focusing on brand identity, logo creation, and visual content. Collaborated with development teams to ensure cohesive design and functionality across projects.

Game Development

2020 - 2024

Client Side Development (Ran Online)

- Worked on client-side development for a game project, handling UI/UX elements and in-game visual features. Assisted in optimizing user experience and maintaining game assets.

Timekeeper (Construction Work)

2022 - 2023

- Responsible for accurately recording employee attendance, work hours, and daily site activities. Ensured proper documentation and reporting to support payroll and project tracking. Maintained organization and coordination between workers and site supervisors.
